All cots require a thorough assessment procedure.

We offer a free of charge demonstration and assessment service to help Health Care Professionals prescribe the correct equipment.

TIMMY ▶

The Timmy is a flexible care cot, which focuses on the needs of the child, parents and carers.

Available in different platform sizes and door heights with or without etched, coloured panels and with a number of profiling and height adjustable platforms.

◀ CARSTEN

The budget option. Solidly made, like all of these cots from Alder wood and finished with vegetable based coatings, the Carsten is a therapy friendly cot.

This cots maybe specified with a number height adjustable platforms.

OLAF ▶

The Olaf's features are really helpful to both carer and user. The platform goes very low (35cm to the top of a basic mattress), but also rises to working height (105cm) to allow the carer comfortable access to the user.

Superbly crafted and strong with a light airy feel because of the use of the plexiglass, together with the wooden rails. Variable height is standard on this cot and it is available in several door heights and platform sizes and a number of padding options.

The Olaf, because of its ability to go so low, it is extremely useful in assisting a disabled parent.

◀ HANNAH

The Hannah is available with several door heights and platform sizes.

This an extremely versatile and user friendly cot. It made be specified with either coloured or plain rails, and plexiglass may be specified as an alternative to the wooden rails.

The Hannah can be used with any of the sleeping platforms and is the best option where padding is required.
