

The Thera.Care Wide is now available with safety sides.

Centralised lockable castor

Self levelling leg raise

Easy to use hand control with contrasting buttons

## The Thera.Care Wide

Has been created to offer a solution to equipment users who may need a nursing style bed that is wider than a standard 3' (90 cm bed).

This model may be specified in either 4' (120 cm) or 4'6" (140 cm) widths, this additional width offers a safe space for clients who require the extra room for independent transfers and for "in bed" support or personal care.

This bed is recommended for all ages including children under 12 when used with our mesh sides and padded rails. Alternatively please look at our extensive range of paediatric cots.

- Electronic four section profiling.
- Electronic variable height.
- Steel Mesh Platform.
- Unique self levelling leg raise.
- Locking Castors.
- Mattress compensator.
- 146kg weight capacity.
- 3 Bar side rails are standard.
- 20cm extension available as an option.
- Wide range of accessories and adaptations available
- Fully guaranteed for 3 years.
- Free product demonstration.
