

### The Rotoflex 200 Turning Bed System

A real solution to getting legs into bed.  
Just one button to get in and out of your bed.

The Rotoflex bed from Theraposture is a proven solution to an everyday problem – getting legs into and out of bed. This is achieved by a unique rotational action that will sequentially transfer you from a sitting to a sleeping position with the touch of just one button.

In many cases, the Rotoflex truly delivers independence as it is a real alternative to hoisting and carer assistance. It is a sophisticated and PROVEN product developed over 18 years, to help users transfer independently on their own terms. Where carers are assisting, their contribution to transfers can be greatly reduced if not completely removed, saving thousands of pounds in care costs or residential care. In this situation the bed can pay for itself many times over.

Technical specifications/options

Fully enclosed removable base cover			
Low, medium and very high risk interchangeable mattresses			

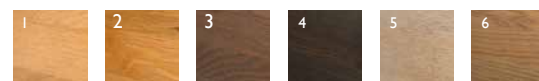

The Rotoflex is available as a single bed, or part of a double combination, with standard beech veneer, solid oak or upholstered surround. The Rotoflex can be made to rotate to either side of the bed to ensure that it is compatible with your room situation. In addition to the unique rotation, the Rotoflex also has a profiling and variable height function with the latter helping to achieve a standing transfer if needed.

One of our qualified product advisors will guide you through a product assessment during which you can actually try the Rotoflex bed and therefore be sure that it will meet all of your needs and expectations. Following purchase, peace of mind is assured through Theraposture's 14-day Suitability Guarantee which provides time to assess suitability without the worry of losing payment. A rental plan with low monthly payments is also an option.

Each Rotoflex is supplied with –

- High quality memory foam mattress
- Two side rail handles
- Two sets of fitted sheets with a sewn in pillow case
- A battery backup for up to four separate devices
- Three year extendable warranty (conditional on service schedule)
